D•R•E•A•M: play spaces

Create the play space of your dreams with Waterplay® Solutions. Aquatic play is our specialty. With over 25 years industry experience, we've tailored our extensive product lines to suit the needs of nearly every aquatic play space design. Outstanding quality, tireless dedication to innovation and unmatched customer service are what make us the proven expert in aquatic play.

aquatic play features

Be creative with options designed for every age and ability.

slide activity centres

Get custom with modular footprints full of interactive fun.

waterslides

Go big with customizable waterslide models for all ages.

urban water features

Create urban zen with artistically inspired water features.

the concept

aquatic play pad

An aquatic play pad is a zero-depth environment that incorporates exciting aquatic features designed to spray, splash and spill onto the surrounding area... and those playing in it! Adequate drainage is an integral part of the design. Because water immediately drains away from the play space, aquatic play pads have become a popular choice for communities looking for a safe aquatic environment without the need for a qualified lifeguard.

aquatic play pool

An aquatic play pool is an environment where aquatic play features are placed at a consistent depth of two inches (50.8mm) or higher. Wading and beach-entry pools are the most popular options to include aquatic play features. It is recommended that aquatic play pools employ a qualified lifeguard during operational hours.

water management

Protect your investment with leading water management solutions.

D • R • E • A • M: urban

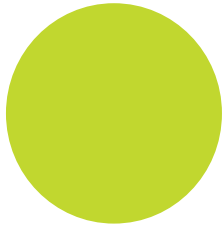

dream...

anywhere

Aquatic play pads can go anywhere. Smaller play pad designs are great for urban areas such as day cares, youth centres, schools and community areas with limited space. Some of the best aquatic play pads were built in the centre of urban jungles surrounded by towering high-rises and a bustling metropolis.

D • R • E • A • M: municipal parks

dream... of community

Better parks build stronger communities.

There's nothing quite like the sound of families laughing together while enjoying a day in the park. Municipal green spaces are a perfect place for any aquatic play pad design, no matter how big or small.

D • R • E • A • M: hotels & resorts

dream...

of excitement

Today's hotels and resorts offer amazing attractions.

Aquatic play spaces are an excellent way to generate excitement and revenue for new hotels and resorts. Adding aquatic play features to existing pool areas is also a great way to rejuvenate an aging design and attract new patrons.

D • R • E • A • M: aquatic facility

dream...

big

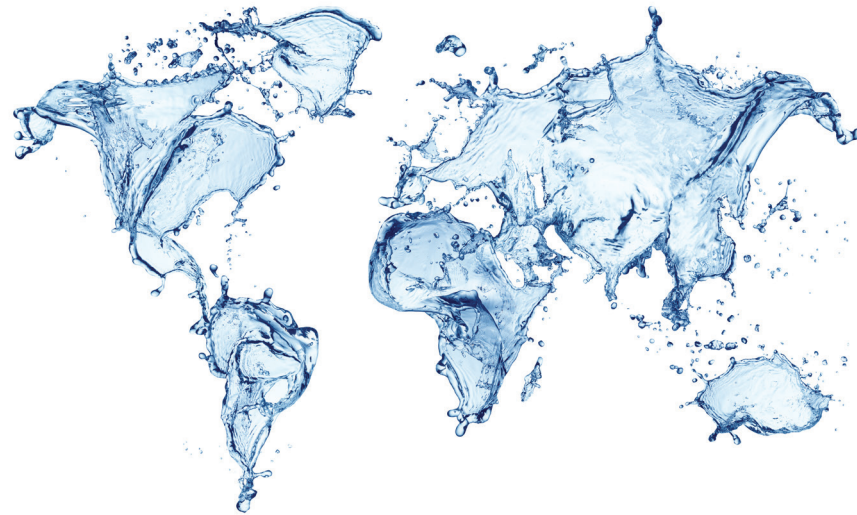

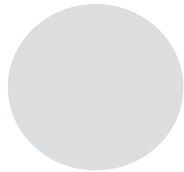

Dream beyond expectation with Waterplay. Larger-than-life aquatic facilities feature everything from slides to lazy rivers... and everything in between. Waterplay's full suite of products give you the ability to take on even the biggest aquatic projects around.
